

## Congratulations

To Darryn and Jennifer

We watched you grow from a precious little boy -- (do you remember singing "God Bless America" and saying from a bug. When I asked you about it, you replied "ain't you heard of a lighten bug")

...into a wonderful, gifted young man. I still want that picture done in black and white of the music !!

We are glad you have found Jennifer and welcome her to our family. You are both special to us

We wish you both the love and happiness that you so deserve
